

Giles County Public Schools Budget Factors

The Schools Our Children Deserve

We all want our children to attend schools that are well-resourced and able to provide reliable transportation, nutritious meals, quality instruction, and essential health services. Since the pandemic, our roughly 3,000 students in Giles face more challenges than ever, from staff shortages, drops in academic achievement, and additional mental health needs. When looking at our current local spending, it's clear our budget comes up short in meeting the most pressing challenges our students and schools face today. Giles can step up to fund our schools at levels that meet our students' needs and better reflect our capacity and commitment to our children.

Budget

In the 2022-2023 school year, Giles County spent \$11,288 per student, ranking us 130 out of 131 school divisions in the state.

Giles has seen a drop in local per student spending of \$525 or 13% between the 2014-2015 and 2022-2023 school years (adjusted for inflation). The Southwest region decreased local per pupil spending by 6% over this time. Compared to the regional average for local per student spending, Giles only spent \$1 more in the 2022-2023 school year. While Giles had a strengthening economy over this time, its level of commitment and effort towards schools did not reflect this.

Capacity and Effort

Virtually every locality in the state spends beyond what the state requires it to match (referred to as Required Local Effort) because the state vastly underestimates what it actually costs to run schools. In aggregate, divisions spent 107% above the Required Local Effort, but Giles County only spent 29%, which is 78 percentage points below the state average. Giles would need to spend \$6,523,055 more annually to be at the average state percent above the Required Local Effort (this reflects the low level of effort the division puts into per pupil spending relative to the state).

Giles County has capacity to do more to raise adequate revenue for its schools. Giles County's property tax effort is 15% below the average state rate.

A one penny property tax increase in Giles County would raise approximately \$120,000 annually.

Outcomes

Many students lost significant ground on state academic achievement between the 2018-2019 and 2022-2023 school years. Students in Giles saw a drop in pass rates on the reading SOL test of 10.5% and 31.7% in math - among the largest declines in the state. Yet further disparities exist, with math SOL pass rates dropping 40.8% for economically disadvantaged students. Giles must do more for its students who face significant barriers to education.

Staffing

The teacher vacancy rate in Giles was 1.9% as of October 2023. The overall staffing vacancy rate was 4.1% as of October 2023, adding pressure for all staff to cover shortage areas.

Giles had an average budgeted teacher salary of \$58,793 in the 2023-2024 school year, which is \$11,648 below the state average. With high salaries and lower cost of living in nearby communities, on top of a dwindling supply of graduates with teaching degrees, Giles is not in a strong position to compete for high-quality educators in the future.
