

# Wythe County Public Schools Budget Factors

## The Schools Our Children Deserve

We all want our children to attend schools that are well-resourced and able to provide reliable transportation, nutritious meals, quality instruction, and essential health services. Since the pandemic, our roughly 4,000 students in Wythe face more challenges than ever, from staff shortages, drops in academic achievement, and additional mental health needs. When looking at our current local spending, it's clear our budget comes up short in meeting the most pressing challenges our students and schools face today. Wythe can step up to fund our schools at levels that meet our students' needs and better reflect our capacity and commitment to our children.

### Budget

In the 2022-2023 school year, Wythe County spent \$12,788 per student, ranking us 111 out of 131 school divisions in the state.

Wythe has seen an increase in local per student spending of \$693 or 17% between the 2014-2015 and 2022-2023 school years (adjusted for inflation).

### Capacity and Effort

Virtually every locality in the state spends beyond what the state requires it to match (referred to as Required Local Effort) because the state vastly underestimates what it actually costs to run schools. In aggregate, divisions spent 107% above the Required Local Effort, but Wythe County only spent 77%, which is 30 percentage points below the state average. Wythe would need to spend \$2,963,556 more annually to be at the average state percent above the Required Local Effort (this reflects the low level of effort the division puts into per pupil spending relative to the state).

Wythe County has capacity to do more to raise adequate revenue for its schools. The locality has a typical revenue capacity score according to the Virginia Auditor of Public Accounts, but does far less than most. Wythe County's property tax effort is 36% below the average state rate.

A one penny property tax increase in Wythe County would raise approximately \$290,000 annually.

### Outcomes

Many students lost significant ground on state academic achievement between the 2018-2019 and 2022-2023 school years. Students in Wythe saw a drop in pass rates on the reading SOL test of 9.4% and 25.6% in math - among the largest declines in the state. Yet further disparities exist, with math SOL pass rates dropping 32.6% for economically disadvantaged students. Wythe must do more for its students who face significant barriers to education.

### Staffing

The teacher vacancy rate in Wythe was 1.6% as of October 2023. The overall staffing vacancy rate was 3.0% as of October 2023, adding pressure for all staff to cover shortage areas.

Wythe had an average budgeted teacher salary of \$51,196 in the 2023-2024 school year, which is \$19,245 below the state average. With high salaries and lower cost of living in nearby communities, on top of a dwindling supply of graduates with teaching degrees, Wythe is not in a strong position to compete for high-quality educators in the future.
